Provide full knowledge of the supply chain through education, certification and recognition; driving racing professionals worldwide and increasing the profitability of the companies in which they work.

Education

ISCEA provides knowledge through training courses offered to industry professionals or students of prestigious educational institutions.

The preparation courses ISCEA have 2 important sources of knowledge.

- The industry, which provides best practices, standard practices and emerging and innovative practices.
- The academy, which provides updated bibliography and research products, as new practices and international case studies disseminated in academic publications.

About ISCEA

- ISCEA established in 2003 to fill the need of high impact training for supply chain professionals and candidates for supply chain certification exams.
- Holds supply chain education workshops worldwide.
- ISCEA instructors are industry expert and subject matter specialist.

Why Join ISCEA?

- To meet Supply Chain Professionals
- To learn about Supply Chain Operations
- To get Certified
- To get Recognized
- To keep up with Industry Trends

What is the difference between going to College and ISCEA?

- We are not competing with University Education.
- We are supplementing what is learned at the University level.
- Most of our members are University Graduates.
- ISCEA teaches Supply Chain in a few days or weeks, what universities might take months or years.
